

# Rhythm Of The Water

Pia Toscano

When you're stuck  
Driving down a dead end road  
When you can't see the light  
Cause you're glass ain't full  
I'll fill it up  
For you  
Cause I know how you feel  
I've been there before  
When you're drowning in tears  
I'll keep you afloat  
Don't you give up  
On you

We can go with the flow  
We can dance with the waves  
We can take every problem  
And wash em away  
You know  
It's the rhythm of the water  
We can move to the heartbeat  
And live every day  
We can ride with the wind  
Fall in love with the rain  
You know  
It's the rhythm of the water

It's the rhythm of the water  
It's the rhythm of the water  
It's the rhythm of the water  
Feel the rhythm of the water  
It's the rhythm of the water  
It's the rhythm of the water  
It's the rhythm of the water  
Feel the rhythm of the water

When your heart's overflowing  
Share the love  
Cause we're all in the dark  
Till the sun comes up  
So I'll light it up  
For you  
Put a smile on your face  
Feel it in your soul  
Cause the river runs deep  
But you gotta let it go  
I know  
I know

We can go with the flow  
We can dance with the waves  
We can take every problem  
And wash em away  
You know  
It's the rhythm of the water  
We can move to the heartbeat  
And live every day  
We can ride with the wind

Fall in love with the rain  
You know  
It's the rhythm of the water

It's the rhythm of the water  
It's the rhythm of the water  
It's the rhythm of the water  
Feel the rhythm of the water  
It's the rhythm of the water  
It's the rhythm of the water  
It's the rhythm of the water  
Feel the rhythm of the water
