

Simon Sez

Pia Toscano

Everybody's like robots
In an assembly line
They don't never give no thoughts
To what they doing in life
But get a piece of this cold cut
With an order of fries
Sometimes you gotta go nuts
Just to know you're alive
'Cause

You gon' do what they tell you anyway
You be acting like you need them to survive
Well if you gon' do what they tell you anyway
Listen up, you might as well give this a try

If Simon says get lit then you better get lit
Simon says get paid then you better get paid
Simon says give love all over the world
Simon says get laid then you better get laid

Everybody's like robots
In an assembly line
They don't never give no thoughts
To what they doing in life
But get a piece of this cold cut
With an order of fries
Sometimes you gotta go nuts
Just to know you're alive
'Cause

You too scared to be different anyway
You be acting like you don't know wrong from right
Well if you gon' do what they tell you anyway
Listen up, you might as well give this a try

If Simon says get lit then you better get lit
Simon says get paid then you better get paid
Simon says give love all over the world
Simon says get laid then you better get laid

If Simon says get lit then you better get lit
Simon says get paid then you better get paid
Simon says give love all over the world
Simon says get laid then you better get laid

Everybody's like robots
In an assembly line
They don't never give no thoughts
To what they doing in life
But get a piece of this cold cut
With an order of fries
Sometimes you gotta go nuts
Just to know you're alive
