

Breaking The Fall

Picture Me Broken

Step into my senses
Shatter all my darkness
Find this cure for sadness
You exhaled like an injection
So have this girl in ruins

I've fallen faster than ever, after
I swore I'd never escape disaster
Fallen faster than ever and you're
Here to take it all away

When all failed to draw me from desecration
Your sensation filled my lungs
A stare like a thousand stars
That blinded me of harsh reality

Fallen faster than ever after
I swore I'd never escape disaster
Fallen faster than ever after
I swore I'd never escape disaster
