

# Difference

## Picture This

The songs on the radio  
All sound the same to me  
Why can nobody think for themselves anymore?  
When I'm away from you  
Everyone looks the same to me  
Why can nobody think for themselves anymore?

Can we stand alone?  
Let's be too hard to follow

Oh you, you are the difference for me  
I know that you can breathe on your own  
Oh and I, I'll be the difference for you  
I know that we can be true  
If you be different with me

The songs on the radio  
All have the same old beat  
Why can nobody think for themselves anymore?  
And when I'm away from you  
Everything looks the same to me  
Why can nobody think for themselves anymore?

Can we stand alone?  
Let's be too hard to follow

Oh you, you are the difference for me  
I know that you can breathe on your own  
Oh and I, I'll be the difference for you  
I know that we can be true  
If you be different with me  
If you be different with me  
If you be different with me  
If you be different with me  
If you be different with me

Oh and I, I'll be the difference for you  
I know that we can be true  
If you be different with me

Oh you, you are the difference for me  
I know that you can breathe on your own  
Oh and I, I, I'll be the difference for you  
I know that we can be true  
If you be different with me  
Will you be different with me?  
Will you be different with me?  
Will you be different with me?  
Will you be different with me?
