

Everything Or Nothing

Picture This

Does it mean everything or nothing
That I think about you and I cry?
Did I just get so used to something
That it became engraved in my mind?
And did I really fucking love you
Or just the image in my head?
The one that I have painted of you
I'm gonna love you till I'm dead

Is that what you wanna hear?
I can't waste another year
Not knowing how I feel
Just hoping that it's real

(Don't give this love up you'll never get it back)

I made emotional investments
And wound up broken again
I don't know if you're interested
In the beginning of an end
And did I really fucking love you
Or was it just my messed up head?
I don't think I've seen enough of you
Lying naked in my bed

(I'll never forget when you said that)

Is that what you wanna hear?
I can't waste another year
Not knowing how I feel
Just hoping that it's real
Just hoping that it's real
Just hoping that it's real
Just hoping that it's real

Does it mean everything or nothing
That I think about you and I cry?
Did I just get so used to something?
I'm gonna love you till I die

Is that what you wanna hear?
(Don't give this love up you'll never get it back)
I can't waste another year
(I'll never forget when you said that)
Not knowing how I feel
(Don't give this love up you'll never get it back)
Just hoping that it's real

Don't give this love up you'll never get it back
I'll never forget when you said that
Don't give this love up you'll never get it back
I'll never forget when you said that
Don't give this love up you'll never get it back
I'll never forget when you said that
Don't give this love up you'll never get it back
