

Gorgeous

Picture This

I knew from the second that I found you
I'd spend every minute dreaming 'bout you
Let me take you out, let me take you out tonight
Let me take it off, let me take it off your mind

I don't wanna know a world where you're not mine
And we ain't got our tongues tied
I just wanna go with you where the sun shines
You're so, you're so
I don't wanna know a world where you're not mine
And we ain't got our tongues tied
I just wanna go with you where the sun shines
You're so gorgeous
You're so gorgeous

I want you wrapped around my fingers
Kiss me, I wanna feel it linger
Let me take you out, let me take you out tonight
Let me take it off, let me take it off your body and your mind

Babe I think that you're just
Rare to find your gold dust
Heaven might just owe us
You're so gorgeous

I don't wanna know a world where you're not mine
And we ain't got our tongues tied
I just wanna go with you where the sun shines
You're so, you're so
I don't wanna know a world where you're not mine
And we ain't got our tongues tied
I just wanna go with you where the sun shines
You're so gorgeous

Skin on skin on skin on skin
All I want is you to want me
Skin on skin on skin on skin
You're so, you're so, yeah
You're so goddamn beautiful

I don't wanna know a world where you're not mine
And we ain't got our tongues tied
I just wanna go with you where the sun shines
You're so, you're so
I don't wanna know a world where you're not mine
And we ain't got our tongues tied
I just wanna go with you where the sun shines
You're so gorgeous
