

If You Wanna Be Loved

Picture This

We're lost tonight
Alone in our hotel room
Your skin on mine
I don't know if I should tell you
But I feel alive
Only when I am laying next to you
(Next to you)

And our hearts collide
Your lips control my next move
And I see your eyes
They tell me what you wanna do
And I feel alive
Only when I am laying next to you
(Next to you)

I don't want this night to end
We're better when we're together
We got so much more to give
Let's make it last forever
We asked for it, this is it
I just wanna make you better
One more time

If you wanna be loved
Then tell me now
I can be the one
To show you how
If you wanna be loved
If you wanna be loved
One more time
(Wanna be loved, wanna be loved)

Under this light
I've never wanted you more
Than I do tonight
I know that we'll get in trouble
But I feel alive
Only when I am laying next to you
(Next to you)

I don't want this night to end
We're better when we're together
We got so much more to give
Let's make it last forever
We asked for it, this is it
I just wanna make you better
One more time

If you wanna be loved
Then tell me now
I can be the one
To show you how
If you wanna be loved
If you wanna be loved
One more time

If you wanna be loved (If you wanna be loved)
If you wanna be loved (If you wanna be loved)
One more time (Time, time, time, time)

So move your body close
And let your heart explode
I wanna let you know
I wanna let you know
So move your body close
And let your heart explode

If you wanna be loved (If you wanna be loved)
Then tell me now
I can be the one (I can be the one)
To show you how
If you wanna be loved (If you wanna be loved)
If you wanna be loved (If you wanna be loved)
One more time (Time, time, time, time)

If you wanna be loved (If you wanna be loved)
Then tell me now
I can be the one (I can be the one)
I can show you how
If you wanna be loved (If you wanna be loved)
If you wanna be loved (If you wanna be loved)
One more time (Time, time, time, time)

If you wanna be loved (Wanna be loved, wanna be loved)
If you wanna be loved (Wanna be loved, wanna be loved)
One more time
