

Jane

Picture This

High street fashion
Expensive clothes
I love her more than
Anybody knows
She twists my melon
She cuts me up
Maybe that's why
I'm so in love

You make me feel
Like love is real
You pick me up
You let me down
You make me feel
You just make me feel
So pick me up
I wanna lay you down

Just a brief second
Through your car window
Oh I didn't ever
Want you to go
Though our friends are around
They disappear to me
Cause when I hear your sound
I can hardly breath

You make me feel
Like love is real
You pick me up
You let me down
You make me feel
You just make me feel
So pick me up
I wanna lay you down

High street fashion
Expensive clothes
I love her more than
Anybody knows
