

# Let's Try Love

Picture This

I wanna go where the lights are low and you hold my bones like they're made of gold

I wanna know when I'm far from home, that you'll help me find my way  
I wanna go somewhere I can feel something so unreal that our hearts can't beat

I wanna show you every part of me

Is it too late to fight for us?

Is it too late to share our hearts?

I know you think we've tried it all but

Let's try love

Let's try love

Let's try love

'Cause we tried hurt

And it didn't work

So let's try love, let's try love, let's try love

I wanna go where the worlds alive, somewhere hard to find, somewhere in your eyes

I wanna know what your hands feel like when you're leading me to love  
I wanna see you in a gorgeous glow, where your heart is pure and I'm always yours

I wanna carry you through gardens, love

Let's try love

Let's try love

Let's try love

'Cause we tried hurt

And it didn't work

So let's try love, let's try love, let's try love

Running out of days

Running out of minutes

Put our hearts in it

Let's try, let's try love

Let's try love, let's try love

We're running outta time

Running out of reasons

I just wanna feel it

Let's try, let's try love

My love

'Cause we tried hurt

And it didn't work

So let's try love, let's try love, let's try love

So let's try love, let's try love, let's try love
