

Life Of The Party

Picture This

I can't be the life of the party
Can't carry on being heartless
I'm better off being honest
Or I get hurt

I've broken every promise I've made
I'm insecure, often I hate
Dealing with the problems I face
I get hurt
And I feel like letting you know
That I don't like getting too close
And I'd be better off on my own
'Cause I get hurt

I'll pull you in and push you back, yeah
I don't need you to love me back

I can't be the life of the party
Before this night gets started
I need somebody to show me
How to fit in
I can't be the life of the party
Before this night gets started
I need somebody to show me
How to fit in

I can't be the life of the party
Can't carry on being heartless
I'm better off being honest
Or I get hurt

I find it hard speaking my mind
Especially with the people I like
If we're talking 'bout feelings, I might
I might get hurt
So I wanna get wasted
Barely recognise faces
'Cause it's the only way that
I won't get hurt

I can't be the life of the party
Before this night gets started
I need somebody to show me
How to fit in
I can't be the life of the party
Before this night gets started
I need somebody to show me
How to fit in

I can't be the life of the party
Can't carry on being heartless
I'm better off being honest
Or I get hurt

I can't be the life of the party
Before this night gets started
I need somebody to show me

How to fit in
I can't be the life of the party
Before this night gets started
I need somebody to show me
How to fit in

I can't be the life of the party
Can't carry on being heartless
I'm better off being honest
Or I get hurt
I can't be the life of the party
Can't carry on being heartless
I'm better off being honest
Or I get hurt
