

## Modern Love

### Picture This

Tell me you're sorry so we can move on  
Kissing my friends is always wrong  
But I'm not too worried  
'Cause we're still so young now (ooh, yeah)  
Just like this night, we won't last long  
So let's leave this party, I'll find my way home  
Into your body, leave the light on now (ooh, yeah)

Late night, red wine and drink

'Cause we are modern lovers  
Hanging on each other  
Late night, long drive, you can't kill our vibe  
'Cause we are modern lovers  
We can't get enough of  
Late night, days, nights, we all lose our minds  
(Ooh yeah, ooh yeah, ooh yeah)

Act so cold-hearted, but I know you're not  
Look what you've started, can't be apart  
Until the morning, leave the light on now (ooh, yeah)

Late night, red wine and drink

'Cause we are modern lovers  
Hanging on each other  
Late night, long drive, you can't kill our vibe  
'Cause we are modern lovers  
We can't get enough of  
Late night, days, nights, we all lose our minds  
(Ooh yeah, ooh yeah, ooh yeah)

Broken by the love  
They can't handle us  
We can't get enough  
This is modern love
