

# On Your Side

Picture This

Once in every lifetime  
Find a girl like you  
To hold in every night time  
You're every lifeline that I'll ever go through  
And if we had 200 lives  
I'd love you 200 times  
'Cause we're so much more than me and you

And I'm on your side  
Baby if it's wrong then I don't want it to be right  
That's ride or die  
I'm on your side  
Even if the world is spinning opposite tonight  
Baby I don't mind  
I'm on your side  
Baby I don't mind  
I'm on your side

Once in every while, babe  
You see a dream come true  
To take away the nightmares  
I'll always be right here, falling right next to you

And I'm on your side  
Baby if it's wrong then I don't want it to be right  
That's ride or die  
I'm on your side  
Even if the world is spinning opposite tonight  
Baby I don't mind  
I'm on your side  
Baby I don't mind  
I'm on your side

And even though I might just spend my whole life  
Fighting only your fights  
Tryna make it alright  
Whenever you're down I'll pick you up somehow  
Anything you want now  
Oh, whatever it is

I'm on your side  
Baby if it's wrong then I don't want it to be right  
That's ride or die  
I'm on your side  
Even if the world is spinning opposite tonight  
Baby I don't mind  
I'm on your side  
Baby I don't mind  
I'm on your side

I'm on your side  
Baby I don't mind  
I'm on your side  
I'm on your side
