

Pretend

Picture This

So here we go
I don't play pretend
I don't wanna know if we'd be better off as friends
I like the way we work
When we work together
You know that things get worse before
They get better

So chill out
Lie down
Relax yourself
Or freak out
Dance around with everybody else

Cause we can be anything
That we want
And we can do anything
We wanna do
I'll be your everything
If you want
I'll make you feel
Brand new

So there you go
You've gone your own way
You didn't wanna know what I
What I had to say
But how could I stay mad
When you look so sweet
I gave you all I had you knocked me
Knocked me off my feet

So chill out
Lie down
Relax yourself
Or freak out
Dance around with everybody else

Cause we can be anything
That we want
And we can do anything
We wanna do
I'll be your everything
If you want
I'll make you feel
Brand new

Cause we can be anything
That we want
And we can do anything
We wanna do
I'll be your everything
If you want
I'll make you feel
Brand new
