

Saviour

Picture This

We had to get lost
To find each other again
So we could be the ones in the end
Who made it out for real

In a different place
I love the way that you didn't change
We grew up but we stayed the same
Just how we wanted to

And did you ever look for me?
Did you ever wanna run? Did you ever wanna just be free?

'Cause the world couldn't keep us apart
And it didn't turn in our favour
But you have a hold of my heart
And I'm gonna be your saviour
No the world couldn't keep us apart
And it didn't turn in our favour
But you have a hold of my heart
And I'm gonna be your saviour

What will we talk about?
I don't know what to say
I wrote a thousand letters to you
And threw them all away
You were on my mind
I thought about you from time to time
I always wondered if your path would cross mine
And now it has

And did you ever look for me?
Did you ever wanna run? Did you ever wanna just be free?

'Cause the world couldn't keep us apart
And it didn't turn in our favour
But you have a hold of my heart
And I'm gonna be your saviour
No the world couldn't keep us apart
And it didn't turn in our favour
But you have a hold of my heart
And I'm gonna be your saviour

Woah oh oh
Awoah oh-oh oh (and I'm gonna be your saviour)
Awoah oh oh
Awoah oh-oh oh (and I'm gonna be your saviour)

No the world couldn't keep us apart
And it didn't turn in our favour
But you have a hold of my heart
And I'm gonna be your saviour
No the world couldn't keep us apart
And it didn't turn in our favour
But you have a hold of my heart
And I'm gonna be your saviour
No the world couldn't keep us apart

And it didn't turn in our favour
And I'm gonna be your saviour
And I'm gonna be your saviour
