

Blown Away

Picture

Earth is shaking
Sky is red
Earth is burning
I feel I'm going mad

They are blowing up everything we had
They're destroying us, we are going mad

A touch of love
A taste of life
Blown Away

Someone did it there's no return
He pushed the button I hope he will burn

They are blowing up everything we had
They're destroying us, we are going mad

A touch of love
A taste of life
Blown Away

Someone did it there's no return
He pushed the button I hope he will burn

They are blowing up everything we had
They're destroying us, we are going mad

A touch of love
A taste of life
Blown Away
