

Killer in My Sights

Picture

On a cold and misty morning
On a frozen winters day
I was called up to discover
How a body there could lay
And I feel that
The killers in my sights

All I see is all I take in
Just a seed is all I need
I will find the killer hiding
I will follow all his leads
And I feel that
The killers in my sights

Oh how I tried
Catch the one that I have been denied
Oh how I cried
Got to get that killer in my sights

Need to find a clue to help me
I've been chasing all these years
Need to find a way to salvage
Gotta try to block these fears
And I feel that
The killers in my sights

Oh how I tried
Catch the one that I have been denied
Oh how I cried
Got to get that killer in my sights

Oh how I tried
Catch the one that I have been denied
Oh how I cried
Got to get that killer in my
Got to get that killer in my
Got to get that killer in my sights
