

The King Is Losing His Crown

Picture

Why do people
Take so long to act
See the slaughter
Blood runs down our backs

It never ends
Time to take revenge

I will follow
All you do is lead
You can trust in me I love to bleed

It never dies
Sorrow in their eyes

And the king is losing his crown
And the king is losing his crown

Why does power need to choke our breath
See their castles burning in the west

It never ends
Time to take revenge

There is gold and walls are covered with the magic dust
There are diamonds strewn as dirt but
Dont go there were nowhere now

And the king is losing his crown
And the king is losing his crown

And the king is losing his crown
And the king is losing his crown
And the king is losing his crown
And the king is losing his crown
