

The Price I Pay

Picture

I couldn't tell if I was on my back
You never told me I would be attacked
You wrapped me around your little finger
And I should hang my head in shame

What it feels like livin in a cage
And I could never ever be upstaged
There goes my heart my reputation
And I should hang my head in shame

When you said you needed someone babe
I could change my ways thats the price I pay
When I said I need a place to lay
You stood in my way
Thats the price I pay

You gotta show you feel something sometimes
But I could never see it in your eyes
Cant stand that mental suffocation
And I should hang my head in shame

When you said you needed someone babe
I could change my ways thats the price I pay
When I said I need a place to lay
You stood in my way
Thats the price I pay

I couldn't tell if I was on my back
You never told me I would be attacked
You wrapped me around your little finger
And I should hang my head in shame

When you said you needed someone babe
I could change my ways thats the price I pay
When I said I need a place to lay
You stood in my way
Thats the price I pay

When you said you needed someone babe
I could change my ways thats the price I pay
When I said I need a place to lay
You stood in my way
Thats the price I pay
