

## Flawless Execution

Pierce the Veil

Blink  
And I'll explode I'm just the type  
Perverted loneliness defined  
I'm not obsessed, far worse, I'm fine

And pain is unavoidable at times  
But if it gets shit off your mind  
I understand, that's kinda why  
I'm here, right? Yeah

Please stop, don't worry  
I can be your freak  
I will scar you with my  
Flawless execution every time

Shame I'm just a tiny parasite  
But I will eat you up alive  
All of your tenderness  
The flies swarm round

Do you really crave a life  
(That's not beholden to me)  
I didn't mean to burden you  
With love in my condition

Please stop, don't worry  
I can be your freak  
I will scar you with my  
Flawless execution every time

Horrified, swallowing your perfume  
Why won't you save me?  
You and I are blood and wine

Please stop, don't worry  
I can be your freak  
I will scar you with my  
Flawless execution every time

Every time  
Every time  
Dead right
