Pi'erre Bourne

You live in my dreams  
You just like a movie scene  
I could watch you every day  
Stuck on my mind repeat  
She don't mind attention  
Only when it come from me  
Asking bout my intentions  
Even though she over me  
You live in my dreams  
You just like a movie scene  
I could watch you every day  
Stuck on my mind repeat  
She don't mind attention  
Only when it come from me  
Asking bout my intentions  
Even though she over me

Fresh water on the grass outside  
Cold air fill up lungs inside  
Every night 2 weeks she cried  
No one ever knew because she hide  
Gotta text, want me to slide  
Get anxious and take deep sighs  
You could tell every time lie  
And they ain't can't help confide

Be real with the one who cares, hoe  
Life been hard, ain't fair, though  
It was all good just like a year ago  
Gotta grow up but you scared ya know  
In the mirror you stare and it all goes bad  
And the meds don't help, you feel too sad  
Did this to yourself but you can't be mad  
Just ask for some help, hold out my hand

You live in my dreams  
You just like a movie scene  
I could watch you every day  
Stuck on my mind repeat  
She don't mind attention  
Only when it come from me  
Asking bout my intentions  
Even though she over me  
You live in my dreams  
You just like a movie scene  
I could watch you every day  
Stuck on my mind repeat  
She don't mind attention  
Only when it come from me  
Asking bout my intentions  
Even though she over me

Take a break if you need to  
Ain't the life you agreed to  
You just want to see where it lead to  
I'm the one you wanna speak to

Girl it's gonna be alright  
Let it go, don't care at night  
Entertaining them thoughts excite  
Change your mind, hop on that flight

Sometimes you need what you think you don't  
But it always gonna end up helping  
Would have gave you all of me  
But you say you want more, that's super selfish  
Regret what you did in the past, but girl  
These the cards that you was dealt with  
And I can't deal with what you're giving me  
What's gonna happen? It ain't no telling

You live in my dreams  
You just like a movie scene  
I could watch you every day  
Stuck on my mind repeat  
She don't mind attention  
Only when it come from me  
Asking bout my intentions  
Even though she over me  
You live in my dreams  
You just like a movie scene  
I could watch you every day  
Stuck on my mind repeat  
She don't mind attention  
Only when it come from me  
Asking bout my intentions  
Even though she over me
