Black power (Black power)
Nigga, it's black power
Lights off like the bills ain't getting paid (Getting paid)
Dog, it's time to take back what's ours (Take it back)
Rap game fucked up, 'bout so many cowards (So many)
Dog, I'm just trying to make a way, no superpowers
I'm just chilling in the cut like an ice-cube tray
She just really want to fuck and leave me 'lone for days
Hit me up like "Hey, stranger, better be on your way!"
I'ma pull up, pull up, pull up in my Escalade
I'ma pull up, pull up, pull up in my Escalade
They just love to flex 'cause being broke is hell
I'm just trying to dodge the bullets nigga, and these sells (God damn)
Police knock a nigga, everyday, everyday, everyday, every fucking day and I
ain't going to jail
Population control nigga, we ain't safe (Nope)
Better pray for your folks boy, they on the way

All my shit products

When I was a sophomore in high school my jeans was Prada, Dolce & Gabana
OG Space Jam's and some 9's loca, navy, Carolina
Lou board, I'm fly
Yeah, that's that ooh, ooh, goo, pasta
Girl, you gotta bounce it, bounce it faster and faster
Gone bust it open like a pack of chips
Gone arch your back, arch your back like shrimp (Bitch, if you don't arch yo

Girl, don't flex no punk but, I got you bent
Girl, if it ain't no sex don't come 'cause I gotta hit
Dope as fuck, I'm hard as shit
Ain't no debates, ain't no arguments
I'm just getting warmed up like cartridges
I'm arguably on my way, that's why I'm going harder than everybody
