

# Call My Name

Pietro Lombardi

Say my name  
Say it loud  
Say it just to me  
Say it once say it twice  
But don't dissapear  
Coz I say and I pray  
That you always be the one

Always swear always swear  
That it is so true  
That I miss your sweet kiss  
And a rendezvous  
Coz I say and I pray that you always be the one

Say it again I miss you Baby  
Say it again I drive you crazy  
Say it again please stay with me  
Coz if you will call call my name  
Baby this love will never end  
Can not ignore I love you more  
More and more

Coz if you will call my name  
Oh again again again  
Can not ignore I love you more  
More and more

Oh I know Oh I know  
that my time would come  
And I pray just to got to miss you like the sun  
Coz I know just for sure that you always be the one  
It's my time it's my place where I wanna go  
Take this Chance for romance  
Oh I know it grows  
Coz I know Oh I know  
That you always make me strong, oh

Say it again I miss you Baby  
Say it again I drive you crazy  
Say it again please stay with me  
Coz if you will call call my name  
Baby this love will never end  
Can not ignore I love you more  
More and more

Coz if you will call call my name  
Oh again again again  
Can not ignore I love you more  
More and more

Woowwwoooooow  
Yeaaah

Coz if you will call call my name  
Baby this love will never end  
Can not ignore I love you more  
More and more
