

## Concrete Beast

Pig Destroyer

This shouldn't exist  
And yet, here it stands  
The lives it's cost  
The energy it demands  
The concrete beast  
Has devoured the land  
Vandalize the rubble  
Crooked catwalk  
Slopes hard to the right  
There's no windows  
In the unknown  
Architect's design  
If you could only see  
The view from the balcony  
Like a flood of bricks and steel  
Buildings fused together  
Impossible architecture
