

Broken English

PIG

I could have got through anytime
Cold lonely puritan
What are you fighting for
It's not my security
It's just an old war
Not even a cold war
Don't say it in Russian
Don't say it in German
Say it in broken English
say it in...

Lose your father your husband
Your mother your children
What are you fighting for
It's not my reality
It's just an old war
Not even a cold war
Don't say it in Russian
Don't say it in German
Say it in broken English
Say it in broken English
