

# Hard Machine

PIG

You've been rehabilitated and rewired  
Re-educated, done what's required  
My illness and my action  
My fabulous attraction  
My kerosene candle  
My gun without a handle

You're a hard machine to have  
A hard machine to hold  
A hard machine that hurts  
Like the best machines, you're cold

You're coming up and you beg for more  
You're coming up and you're feeling sore  
You're coming up like a broken ghost  
You're coming up for your daily dose

You're a hard machine to have  
A hard machine to hold  
A hard machine that hurts  
You're a hard machine that's cold

You're a hard machine to have  
A hard machine to hold  
A hard machine that hurts  
And a hard machine that's cold

Your united hates will call  
To the biggest hurt of all  
While an empty debt it paid

In the tortured truth today

On a night train with the ever lose  
Like a dull, delightful, spreading bruise  
All my sins must be saved  
I've got a God but I can't behave

You're coming up and you beg for more  
You're coming up and you're feeling sore  
You're coming up like a broken ghost  
You're coming up for your daily dose

You're a hard machine to have  
A hard machine to hold  
A hard machine that hurts  
You're a hard machine that's cold

I want a hard machine to have  
A hard machine to hold  
To do just what it's told  
A hard machine to love  
To do just what it's told

I want a hard machine  
To do just what it's told  
I want a hard machine

To do just what it's told  
I want a hard machine  
To do just what it's told  
I want a hard machine
