

## Bitch

## Pigface

There's something about the way we fit  
There's something about this psycho trip  
There's something about the way we groove  
Something's got me and I just can't seem to choose

I want you  
But I hate you

The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great

There's something about the way we fit  
There's something about this psycho trip  
There's something about the way we groove  
Something's got me and I just can't seem to choose

I want you  
But I hate you

The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great

One, two, f\*\*k you

There's something about the way we fit  
There's something about this psycho bitch

The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great  
The one I love I hate  
But the sex is great
