

## Kiss King (high High High)

Pigface

In bed I smile  
Who's scared of dust  
Whose ways had tempted you afar  
The twist in this  
Was fear alive  
It took the stars to show me

I am for the kiss king  
Did I come up for sky  
Like a rush that never fades  
High  
(high high high)  
High

And at the window  
Late at night  
I turned away  
To run with light  
I twisted this  
To feel alive  
Till bigger ashes  
Shook me

I am for the kiss king  
Did I come up for sky  
Like a rush that never fades  
High  
(high high high)  
High  
(high high high)  
High  
(high high high)  
High

I would never  
Pick this pain apart  
Do you want to?  
I want to  
I would never  
Pick this pain apart  
Do you want to?

I am for the kiss king  
Did I come up for sky  
(kiss king touch me kiss king high high high)  
I am for the kiss king  
Did I come up for sky  
Like a rush that never fades  
High  
(high high high)  
(kiss king)

I am for the kiss king  
(high high high)

(high high high)  
(high high high)

I wish that I could play with  
The river ashes showed me
