

## A Bug On Its Back

Pile

There's no reward  
It's a pest to you  
Don't investigate  
It's probably already dead  
But what  
If  
It just starves?  
It isn't on you  
There'd be no funeral  
They probably can't feel it  
Or anything  
I can't imagine how that might feel, so

They probably can't feel it  
But when they see you on yours  
When they see you on yours  
When they see you on yours
