

## Build A Fire

Pile

Why'd you try and build a fire  
And hide  
You gave it no meaning or the like  
No one thinks in pictures but mimes  
And you have no sense of time

Find what you hold most dear in life  
And sell it for a decent price  
Show the kids what's what and what's right  
Guard everything else with a knife

What I want is free  
But I don't know what that means  
I want answers to some questions that I can't speak  
I live nonsense in speed

So just bleed til the hearts pumps harder  
And speak til the tongue pumps water  
But what if some things are better left to breathe

I'm gonna build a fire and die  
One that don't care if I'm dead or alive  
Show em all I've done and what's right  
And they'll use it all as a guide
