

Octopus

Pile

8 arms
8 legs
To suck and push
What do you give to those people?
What do you take?

Read up if you want
Eat up if you want

I was shipped from overseas to learn to spell your name
And say all of those things that you don't want to explain

Don't know how my strength comes from fear

I'm beat up if you want
I'll clean up if you want

I was shipped from overseas to learn to spell your name
And say all of those things that you don't want to explain

Why hate and doubt things
You thought was honest

Why hate and doubt me
When I was honest
