

I can see a bad moon's a risin'
I can see something out on the horizon
I've been told about him a couple of times and
Now I've told you and there ain't no denying

We hear the Truth of the lamb across the land
With the weapon of His Word carried in our hand
See we try to reach the souls that just don't care
'Cause on that one fine day we hope to see you there
You haven't asked the question and you don't know if you're saved
Say 'Father please forgive me'
Then it's done you are forgave
You doubt the Lord above can save you from your sin
Well Peter denied three times and He forgave Him once again
So believe in what we're saying if you think there's no use
Take our Word Jesus Christ is the Truth

I can see a bad moon's a risin'
I can see something out on the horizon
I've been told about him a couple of times and
Now I've told you and there ain't no denying

Well there's a place called heaven
It's way beyond this property
But if you're there one day you won't have to ask why
Eternal lives are guaranteed my father told me so
Something that he told us all 2000 years ago
You can take down your chairs and you can pack them away
You can [?] and it ain't [?]
So come on everybody let's go
That's you and me
We're going up to heaven now for eternity
So believe in what we're saying if you think there's no use
Take our Word Jesus Christ is the Truth

We hear the Truth of the lamb across the land
With the weapon of His Word carried in our hand
See we try to reach the souls that just don't care
'Cause on that one fine day we hope to see you there
You haven't asked the question and you don't know if you're saved
Say 'Father please forgive me'
Then it's done you are forgave
You doubt the Lord above can save you from your sin
Well Peter denied three times and He forgave Him once again
So believe in what we're saying if you think there's no use
Take our Word Jesus Christ is the Truth
