

Big Screen Kill

Pilot

Did you see the picture
Did you read the book
Was it really something
Or was it not so good
It's such a cheap thrill, the big screen kill
I can see the picture very well

Was everybody screaming
Dropping down like flies
Was somebody dying right before your eyes
It's such a cheap thrill, the big screen kill
I can see the picture very well

Did you have to go
It's just the same old show
Now it's hit the streets
It's really bad, you know
It's got to go

Box office made a million
Was it all a fix
But you paid your money
And you got your kicks
It's such a cheap thrill, the big screen kill
I can see the picture very well
