

# Get Up and Go

Pilot

Should have tried better  
Could have made it so much better tonight  
Oh, but the room, it was icy cold  
Maybe tomorrow night  
All of last summer could have sworn  
I had a number to write  
Oh, but the room, it was icy cold  
Maybe tomorrow night  
Get up and go,  
and listen to the one man show

\* Nobody else got a hope in the world,  
gotta open the world  
In time, in rhyme,  
it's better to believe in mine  
Nobody else got a hope in the world,  
gotta open the world

Should have known better  
Could have sworn I had the number to write  
Oh, but the moon, it was icy cold  
Maybe tomorrow night  
All of last summer,  
I was singin' everyday of my life  
Maybe I'll sing in the morning light  
Or maybe tomorrow night  
Get up and go and listen to the radio

Repeat \*x2

Get up and go and listen to the radio

Repeat \*
