

My Lonely Companion

Pilot

My lonely companion
Will always be with me
Will always be close to my heart

It might be a blue day
But each day's a new day
Whenever I'm next to her side

She might be waiting
Alone in the night
When we're together
We do what we might
My lonely companion and I
Get so high

We all hate thunder and lightning
It claps, and brings down the tears
We all have someone to lean upon
Lean on me, lean on me
Lean on me

I'll be here forever
To get it together
No words like the rivers of time

Like thunder and lightning
The words that's too frightening
They'll chill every bone in your spine

She might be waiting
Alone in the night
When we're together
We do what we might
My lonely companion and I
Get so high

We all hate thunder and lightning
It claps, and brings down the tears
(Yeah-yeah-yeah)
We all have someone to lean upon
Lean on me, lean on me
Lean on me

We all hate thunder and lightning
It claps, and brings down the tears
(Yeah-yeah-yeah)
We all have someone to lean upon
Lean on me, lean on me
Lean on me
