

Sky Blue

Pilot

Starlight, shining bright
Make my world all right tonight
Shine through, sky blue
Guide me through my life

Sunray, won't you stay
Guide me through my lonely day
Shine through, sky blue
Brighten up my life

Take me higher, never tire
Like the marrow in your boneio
See the sun come through the window
But you never get enough to know
No, you never get enough to know
No, you never get enough to know

Shine through, sky blue
Brighten up my life

Take me higher, never tire
Like the marrow in your boneio
See the sun come through the window
But you never get enough to know
No, you never get enough to know
No, you never get enough to know

Oh, oh, oh
