

The Mover

Pilot

I just can't tell you the time of day
I don't even seem to know my name
Since you've been round me I can tell you, girl
That now things won't ever be the same

You're such a mover
You turn me over
But still I'm happy just to hold your hand
I'm happy just to hold your hand
Happy just to hold your hand

I hope you don't mind me just standing by
You're the best thing that I ever found
So tell me I'm not just a fool for you
And you'd like to have me stay around

You're such a mover
You turn me over
But still I'm happy just to hold your hand
I'm happy just to hold your hand
Happy just to hold your hand

You're such a mover
You turn me over
You're such a mover
You turn me over
But still I'm happy just to hold your hand
I'm happy just to hold your hand
Happy just to hold your hand
