

The Other Side

Pilot

Hey girl what's it all about
you turn me down and just put the candle out
you got to let me know
see the light, don't go
You got to love me more
take your hand don't go
don't get troubled by the rain on the other side

Hey girl, don't you turn me down
just a happy face lifts me off the ground
you go to let me know
see the lights, don't go
you got to love me more
take your hand don't go
don't get troubled by the rain on the other side

Solo

Keep driving me baby
keep your hands on fire
keep loving me baby
you're a real high-flyer

Hey girl what's it all about
you turn me down and just let the thing go out
you got to let me know
see the light, don't go
You got to love me more
take your hand don't go
don't get troubled by the rain on the other side
on the other side
on the other side
