

## You're Devotion

Pilot

You turn me on, you make me feel good  
Those big green eyes are making me shiver  
You're all I need and that can't be bad  
C'mon, hold me tight without a fright

Girl, oh, you know I need you tonight  
Come, creep with me, we'll turn out the light  
Seen everything but you are the one  
C'mon make it right into the night

Your emotion, your devotion  
Magic moments, they are many  
Keep it goin', keep love growin'

Hair flowing down a gold waterfall  
Give everything to you when you call  
You're all I need and that can't be bad  
C'mon, hold me tight without a fright

Your emotion, your devotion  
Magic moments, they are many  
Keep it goin', keep love growin'

Your emotion, your devotion  
Magic moments, they are many  
Keep it goin', keep love growin'
