My homie call me told me got followed by the feds
Bitches come around tripping on some blue or red
But everything green it don't stop
These bitch ass niggas don't like us holding our spot
And niggas talking 'bout they come around and take our block
But bitch I got the shit I'm holding this shit i got this lock
Nigga you don't really want to go to war
I've seen some young teenagers bust some rounds off in your car
Get down bitch ass nigga put your head down to the floor
And lay down and pray for your life just like a whore
Cause everything real I'm working wheel
I came through on these niggas in the old snap back Seville

Pimp call me on Friday didn't pick up the phone
I was working on beats I was all in the zone
It said it was him my phone it said Chad
It's time I thought that I had
And I didn't admitting and shit
Still be hitting me all in my chest
Be losing my breath
The next thing I heard he fell to his death
Let me tell you what's next
Listen back to the message and it said
Banner I'm here at LAX
He use to say banner I'm coming out west
To work on myself and I promised to help
But I didn't pick up the phone
Now I'm here all alone
To ride on these crackers and niggas that sell out our race
And I tell you I'm feeling alone
And I'm missing my home
I feel like grabbing my chrome
And let my nuts hang to the floor
And yell out Uh on the phone
Bitch I say Uh on the phone

And let my nuts hang to the floor
And bitch I'm a yell out Uh on the phone
