

# From Nothing to Nowhere

Pinback

Nothing makes you writhe  
Nothing makes you move as far down the wire  
A sudden gesture  
Bruise your faith into right  
Read yourself into history  
Re-write your dementia  
Revision, revision, revision  
Revision, revisions, revision...  
Co-sign my letter, co-sign my letter, co-sign my letter...

(Ray-vision...)

(Repeat 2X)  
(These shadows take care of us  
They cover us up in the shade  
You turn away... turn away)

We come from the ocean, and into the sky we're gonna move

If it's nothing but a sign  
Bleed onto your shoes, man (Repeat 3X)

What's defined as right  
A simple nature  
What's understood de-evolved  
From nothing to nowhere  
Please your numbers  
Stay your numb friends  
Plead to no one  
Stay in nowhere

These shadows take care of us  
They cover us up in the shade  
Into the sky we're gonna move  
These shadows take care of us  
They cover us up in the shade  
Into the sky we're gonna move

If it's nothing but a sign  
Bleed onto your shoes, man (Repeat 3X)

(Repeat 2x)  
These shadows take care of us  
They cover us up in the shade  
Into the sky we're gonna move  
These shadows take care of us  
They cover us up in the shade  
Into the sky we're gonna move
