Torch

Pinback

(Circles and squares surround us, we need to hide)
(Circles and squares surround us, we need to hide)

This planet's old, cold, dead, and crashing into us

(Circles and squares , circles and squares)surround us)
Crashing into us

You gotta know, I'm no "End Of Days" man
That piece doesn't go
Just tug at the frayed ends
Pull it apart
Pull it (you) apart

You're close to me, I push away
You're close to me, I push away
You're close to me, I push away

(Circles and squares surround us, we need to hide)

No fingers
No feelings
I'd push the buttons (circles and squares)
But I can't feel those things

(You're close to me, I push away
The circles and squares are gonna collide)

And it's all I sing.
And it's all icing.

(Surround us...)

You're close to me, I push away
You're close to me, I push away
You're close to me, I push away

Circles and squares
Blood falls over me
Circles and squares
Brings me back to a distance shot in the rubber parts
Circles and squares
I can't stay there

(Surround us...)

You're close to me, I push away
You're close to me, I push away
You're close to me, I push away
You're close to me, I push away
You're close to me, I push away...
