

Endless

Pinegrove

Is life kicking up dust right now?
Has life given up for you right now as well?
Oh, what is life giving us?

I wake up and feel totally the same
I woke up the same as yesterday
With no news of any kind
The long morning, the white afternoon
And then night could be coming soon too
When it finally does

It's endless
Endless
Endless
Oh, endless

But it's an honor to feel this way
To feel the color of the longest day
'Cause it's a shadow that many know
And, well, it's feeling pretty bad to me
But I don't think it goes on endlessly
But the horizon's lifting away from me

And it seems endless
Endless
Endless
Oh, endless

When this is over
When this is under
A foot of water
Hold me forever
Hold me forever
When this is under
When this is over
Hold me forever

When this is over
When this is under
A foot of water
Hold me forever
Hold me forever
When this is under
When this is over
Hold me forever
