

## No Drugs

Pinegrove

No drugs and alcohol today  
I want to remember everything we talk about  
I want to feel light moving in everything you say  
But part of me is caveated out  
Like maybe certain circumstances are permissible  
Maybe I just could and you could just look the other way

Is it so wrong I wanna feel good?  
I wanna feel good  
Is it enough now just to want to  
Even if you mean it?  
I wanna feel good

Let's build us a new house for to live  
You fortify the outside and I got the interior  
I got the materials we're gonna need right here  
Yeah, and it's weird to think I had it always  
When manifestly I am the same as I ever was  
I think the difference this time is that I could just walk away  
Yeah, and now all things rushing out

I wanna feel good  
I wanna feel good  
Is it enough now just to want to  
Even if you need it?  
I wanna feel good (Yeah)

No drugs and alcohol tonight  
I follow my shadow up and out the skylight  
I can see an outline settled in the grey (Grey)
