

# Waveform

Pinegrove

On a page torn from this book  
I drew a waveform with your blood  
So I follow it, and so remorse  
Courses through my body, of course

In a little while I'll go  
Unless you might want to hang a while  
Then I won't  
You're the only one I found so far  
So outside I could be around  
So come down  
Come over

On the cutting board  
The lights were shutting down  
An avocado cut through your thumb  
Coursing out  
Already undone

In a little while I'll go  
Unless you might want to hang a while  
Then I won't  
You're the only one I found so far  
So outside I could be around

You should come down  
Over through the fire escape  
It's so late  
But I know you aren't tired yet  
I'll bet you've got a couple things you think I should know  
But unless you wanna say it now  
I'll go
