

# Disappear

Pinhani

Where do you really come from?  
How do you make me so long disappear?  
I'm not sure you love me  
I'm living the lifelong within a fear  
You seem like very different  
Superior independent  
The peace is what I wanted  
No quiet only trusted  
Where do you really come from?  
How do you make me so long disappear?

Here we are in the town of the lovers  
Here we are in the middle of the sea and the forest  
I wish you like in old days  
So can I only forget tonight?

Where do you really come from?  
How do you make me so long disappear?  
I'm not sure you love me  
I'm living the lifelong within a fear  
You seem like very different  
Superior independent  
The peace is what I wanted  
No quiet only trusted  
Where do you really come from?  
How do you make me so long disappear?

Here we are in the town of the lovers  
Here we are in the middle of the sea and the forest  
I wish you like in old days  
So can I only forget tonight?
