

A beautiful life
I wake up, then I stare into your beautiful eyes
And when we touch, I get such a beautiful high
I wanna keep you here for the rest of my life, my life

I see your face all in my room
And I've been waitin', and you've been waitin' too
Can't get my heart away from you
No need in tryin', 'cause I like it

A beautiful life
I wake up, then I stare into your beautiful eyes
And when we touch, I get such a beautiful high
I wanna keep you here for the rest of my life, my life

And you know that when you wake up
You know I like the way the sun hits you
I know some places I can take you
Girl, we could really get away from here
Where you wanna go, love?
What you wanna do?
I can make it better

A beautiful life
I wake up, then I stare into your beautiful eyes
And when we touch, I get such a beautiful high
I wanna keep you here for the rest of my life, my life
