

One, two, three, and

Your eyes are like a cherry blossom  
I really enjoy the view  
Your kiss is like an open highway  
I want to ride with you

Anywhere, anytime, babe  
Hit my line, oh, it's all right, all right, all right  
Anywhere you like to go  
My heart unfolds for you

I know your heart's been troubled  
But I'll always be right here for you  
Just rest assured, my darling, you belong with me  
I know your heart's been troubled  
I'll always be right here for you  
Just rest assured, my darling, you belong with me

In these arms, I can be your solace  
Forever holding on to you  
Your heart is like a timeless art piece  
I wanna marry you  
Here and now, I've decided, baby  
That I want you for the rest of my life  
When the sun don't shine as bright  
I'm always on your side

I know your heart's been troubled  
I'll always be right here for you  
Just rest assured, my darling, you belong with me  
I know your heart's been troubled  
I'll always be right here for you  
Just rest assured, my darling, you belong with me
