

# Magic

Pink Sweat\$

Understood, yeah

Can't stop lookin' in your eyes, I hate to see you cry  
My love, my love, yeah  
And you know I'd travel miles just to see you smile  
My love, my love

And I don't know what you did  
But every time we touch it feels like magic  
It's like magic, oh  
I don't know where we're goin'  
But every time a cold sweat when we're right here  
When we're right here, oh

For a thousand years, I'd cry a thousand tears for your love  
For your love, for your love  
Anticipation, girl, I'm levitatin'  
For your love, yeah, ooh, ooh (Yeah, say)

I don't know what you did (What you did)  
But every time we touch (Every time), it feels like magic (Yeah)  
)  
It's like magic, oh (Woo, ooh, ooh)  
I don't know where we're goin' (I don't know where we're goin')  
But every time a cold sweat when we're right here  
When we're right here, oh

I can feel it (I can feel it)  
Feels like magic (Feels like magic)  
In my bones (In my bones)  
In my bones (In my bones)  
I can feel it (I can feel it)  
Feels like magic (Feels like magic)  
In my bones (Can't stop)  
In my bones

I don't know what you did  
But every time we touch it feels like magic  
It's like magic, oh (Huh)  
I don't know where we're goin'  
But every time a cold sweat when we're right here  
When we're right here, oh
