

Delirium

Pink

So she thinks she's got a new boyfriend
But the two of them have never met
She's already got his name tattooed
In a heart across her chest
With his pictures plastered on her wall
But he has never called
And even all her friends they say:
'You're living in delirium'

Da da da, Da da da, Da da da, Da da da, Da da da
Babe, you live in delirium
Da da da, Da da da, Da da da, Da da da, Da da

Secretly she's stalking him on the streets
Making sure she's one step behind
They even went to the movies together
Or at least they stood in the same line
She tells everyone he sends her flowers
And love letters he sends her too
And they talk on the phone for hours
It's obvious she's come on blue

Da da da, Da da da, Da da da, Da da da, Da da da
Babe, you live in deliri
Da da da, Da da da, Da da da, Da da da, Da da da
Babe, you're livin' in delirium
Da da da, Da da da, Da da da, Da da da, Da da da

Every night you find her all alone
Fantasising about the brand new home
And she's waiting for the bells the ring a ding-a-ling
Oh, God, she's lost her mind
And her friends tell her all the time
That it's make-believe
This guy she sees it's her disease
She's living in delirium

She's so happy that she found someone
But she's still living in delirium
She's so happy that she found someone
But she's still living in delirium

Da da da, Da da da, Da da da, Da da da, Da da da
Babe, you're livin' in delirium
Da da da, Da da da, Da da da, Da da da, Da da da
Babe, you're livin' in delirium
(She's so happy that she found someone
But she's still living in delirium)
Da da da, Da da da, Da da da, Da da da, Da da da
Babe, you're livin' in delirium
Da da da, Da da da, Da da da, Da da da, Da da da
Babe, you're livin' in delirium
(She's so happy that she found someone
But she's still living in delirium)
Da da da, Da da da, Da da da, Da da da, Da da da
Babe, you're livin' in delirium
Da da da, Da da da, Da da da, Da da da, Da da da

Babe, you're livin' in delirium
Da da da, Da da da, Da da da, Da da da, Da da da
Babe, you're livin' in delirium
