

Evil Eye

Pinkshift

Heads down, listen to me now
The evil eye is dangerous, can't let it see me, uh
I'm not gonna freak out, can't let it get me, uh
Steady beat like a drum, my feet have hit the ground

Racing, my heart is beating loud
The oxygen in my lungs is coursing through my blood
Steady beat like a drum, my feet have hit the ground
I'm not gonna freak out, can't let it get me, oh

Close my windows and my blinds
Hide my face in that disguise
Oh, they're coming for ya
And you've got nowhere to hide

Why don't you have all the answers?
I thought you'd know how to end all the misery
Save me from the dark, thought I could save the world
I can't hit the mark, and time is running out
Oh, I think they're watching in every direction

Close your windows and your blinds
Hide your face in that disguise
Yeah, they're coming for ya
And you've got nowhere to hide

Close your windows and your blinds
Hide your face in that disguise
They're coming for ya
And you've got nowhere to hide

Hey!

Heads down, listen to me now
The evil eye is dangerous, can't let it see me, uh
I'm not gonna freak out, can't let it get me, uh
Steady beat like a drum, my feet have hit the ground

Racing, my heart is beating loud
The oxygen in my lungs is coursing through my blood
Steady beat like a drum, my feet have hit the ground
I'm not gonna freak out, can't let it get me

Can't let it get me, oh
Can't let it get me
I'm not gonna freak out
Can't let it get me, oh
I'm not gonna freak out
Can't let it get me, oh
I'm not gonna freak out
I'm not gonna freak out
I'm not gonna freak
Can't let it get me
